

Hard Surface Cleaner

Single Dose

Product Description

RF™ Water Hard Surface Cleaner - Single Dose makes cleaning floors convenient and easy. No measuring, no guessing. Simply dispense the proper dose into the appropriate size cleaning tank or bucket, add fresh water, and start cleaning!

Single Dose delivers the same benefits as Curecrete's original **RF™ Hard Surface Cleaner**, but with added benefits in convenience, safety and cost-savings.

Additional benefits include:

- No guesswork
- Eliminates any possibility of overdosing or underdosing
- Track costs, inventory and usage more easily
- No multiple packages per tank
- Uniformity regardless of operator changes

Cleans Concrete Floors and Other Hard Surfaces

Single Dose works equally well on all hard surface floors without causing damage to the floor or sealers (other than natural wood) and conditions and enhances regular concrete, densified concrete and densified-polished concrete.

Insoluble contaminants are pulled out and up from the floor, held in suspension, and then disposed of with the rinse water. No residual soils, grit or haze are left behind to dull your floor's shine or diminish its appearance.

If that isn't enough, Single Dose contains a proprietary additive that nourishes the floor as it cleans. Over time, when utilized on a daily basis, this additive reacts with the concrete, creating a barrier that helps reduce the visual impact of scratches and marks on the floor, along with enhancing the results received from burnishing and diamond pads.

Labeled for convenient measuring!

Dilution Ratios

Using the dosing meter on the bottle, dispense the proper dose into the appropriate size tank or bucket, add fresh water, and you're ready to start cleaning!

1.2oz
Mop & Bucket
**Water
2-3 gal**
(7.5-11.3 L)

6oz
(Half Bottle)

**Auto
Scrubber**
**Water
10-19 gal**
(38-72 L)

12oz
(Full Bottle)

**Auto
Scrubber**
**Water
20-30 gal**
(76-113 L)

Technical Info

Form:	Clear, green liquid with fresh scent
Freezing:	If product freezes, agitate to re-emulsify
pH:	11.2 [+/- 0.5] (Concentrate) 9-10 (Diluted for Use)
Packaging:	12 oz (0.35 L) Bottles 12 Bottles Box / 48 Bottles Master Case
Storage Life & Temp:	Three (3) Years 40 - 80°F (4 - 26°C)

Directions For Use

GENERAL CLEANING

Remove debris from area to be cleaned. Fill tank or bucket with the recommended amount of fresh water. Dispense the proper dose into the appropriate size tank or bucket. Adding the cleaner after the tank or bucket has been filled with water minimizes unnecessary foaming. For enhanced results, periodically burnish or buff the surface with a non-aggressive polishing pad.

Note: Test cleaner on a small, inconspicuous area to determine compatibility and effectiveness.

POULTICE CLEANING FOR SEVERE OIL STAINING

Remove all loose soil and fine grit. Mop down Single Dose diluted at 2 oz/gal of water (15.6 mL/L). Agitate the solution to assist the product in penetrating the soil's surface. Cover the wet surface with plastic film and tape down edges. Allow area to remain wet for 10-15 minutes or longer if possible. Remove the plastic film and dispose of soiled solution. The procedure may need to be repeated if soil leaches back to the surface as the concrete completely dries out.

Note: This procedure is designed for spot removal of significant oil or grease staining.

Special Considerations

- Frequency of cleaning depends on the type and quantity of soilage. Contact Curecrete to create a Standard Cleaning Procedure (SCP) for your floor(s).
- The phrase "all hard surfaces" DOES NOT include wood. Wood flexes and creates cracks in the urethane, allowing water to seep through those cracks and penetrate the wood.
- Can be used on floors with paint.
- Several applications of Single Dose may be needed to remove oil stains from concrete surfaces that have severe oil staining. Additional treatment with an oil emulsifier, such as **RF™ Strip & Prepare**, may be necessary.
- Acids, salts, deicers and other harmful substances should be promptly removed to avoid damage to your floor. A proper, regular and frequent maintenance program is highly recommended. Making Single Dose a regular part of your maintenance program will ensure superior results.
- When the product comes in contact with food handling surfaces the surface must be rinsed with potable water.

Warranty, Technical Assistance & Safety Data Sheet (SDS)

WARRANTY

Manufacturer warrants this product to be free from defects. Where permitted by law, no other warranties with respect to this product, express or implied, including without limitation the implied warranties of merchantability or fitness for particular purpose. The purchaser shall be responsible to perform his own tests to determine the suitability of this product for his particular purpose. Liability shall be limited in all events to the supplying sufficient product to re-treat the specific areas to which defective product has been applied. Acceptance and use of this product absolves supplier from any liability, from whatever source, including liability for incidental, consequential or resultant damages, whether due to breach of warranty, negligence or extended by representatives of RF Hard Surface Cleaner - Single Dose, its distributors, applicators or dealers.
